Professional Summary

Results-driven Full-Stack Developer with proven experience designing, building, and deploying web platforms, mobile applications, and API-driven systems. Skilled in both frontend and backend development with working knowledge of payment gateway integration, secure transaction workflows, and scalable architecture. Combines strong software engineering depth with a solid network and infrastructure background for end-to-end digital delivery.

Professional Experience

Web Developer, Zenorva Support 05/2026 – Present
Yaoundé, Cameroon

- Designing and building the company's full web presence: frontend UI, backend logic, CMS, and production deployment.
- Implementing responsive interfaces and support-request workflows.

Full-Stack Developer, Tera 5 — Terra Talent Hub (terratalenthub.com) 2024 – 2026
Yaoundé, Cameroon

- Architected a full-stack skill-verification platform serving talent and employers across Africa.
- Built DigComp-aligned assessments, leaderboard system, QR-verified certificates, and tiered payment system.
- Developed secure API-driven backend and employer hiring dashboard.

Intern, CAMTEL — CESIR-IP 07/2025 – 09/2025
Bafoussam, Cameroon

- Monitored and maintained live IP network infrastructure; supported diagnostics and service continuity.
- Participated in traffic analysis and routing management in a live telecommunications environment.

Web Developer, Dewise Foundation — Dewise Energy 11/2023
Yaoundé, Cameroon

Designed and deployed the organisation's website: responsive layout, content architecture, and production setup.

Technical Contributor & Data Specialist, Cam e-guide / Skolarr Cameroon 2022
Yaoundé, Cameroon

Contributed to the development and deployment of an educational platform serving thousands of Cameroonian students.

Education

Engineering Degree in Computer Networks, 2023 – 2026
National Advanced School of Posts, Telecommunications and ICT (SUP'PTIC) Yaoundé, Cameroon

Final Year Project (PFE): Design and Deployment of a Smart Community Network Relay for SMEs.

High School Diploma (Scientific Series), Franky Comprehensive Secondary School 2018 – 2020
Yaoundé, Cameroon

Average: 16.03/20 | SAT: 1340

Core Competencies

Frontend Development

HTML5, CSS3, JavaScript, React, Next.js, GSAP, responsive design

Backend Development

PHP, Python, Node.js, Flask, RESTful APIs, server-side logic

Mobile Development

Android app development (Java/XML), Flutter (working knowledge), real-time API integration

Databases

MySQL, SQLite, PostgreSQL, MongoDB, Redis, Cassandra, Neo4j

Programming Languages

JavaScript, PHP, Python, Java, C (Expanding: TypeScript, Laravel, Flutter)

Payment & API Integration

Payment gateway integration, secure transaction flows, API design & consumption

DevOps & Tools

Docker, Git/GitHub, Linux (Apache, SSH, Nginx), CI/CD pipelines

Network & Infrastructure

VLAN, OSPF, MPLS, MikroTik, Wireshark, OpenStack, VMware

Personal Projects

Terra Talent Hub 2024 – 2026

Full-stack Africa skill-verification platform: DigComp assessments, tiered payment system, QR-verified certificates, leaderboards, employer dashboard. Live: terratalenthub.com

School Management System

Multi-user web platform with student registration, grade management, payment tracking, and academic document generation. (PHP, HTML, CSS, MySQL)

Android Weather App

Real-time weather via OpenWeather API; city autocomplete and persistent favourite storage. (Java, XML, Android Studio)

Honours & Achievements

Selected Startup Founder, U.S. Embassy Accelerator Program 01/12/2021

Academic Excellence Award, Franky Comprehensive High School 01/12/2019

Bronze Honor, ODSA Hackathon 01/12/2018

Best Student, LEADEx Engineering Olympiad 01/12/2018

Generation Connect Youth Envoy, International Telecommunication Union (ITU) 2026–2030

Bronze Honor, International Youth Mathematics Challenge Top 15%

Additional Activities

Student Representative, FETUC 2025

Represented SUP'PTIC students in national discussions on entrepreneurship and student-founder challenges.

Student Delegate, UNIFAC 2025

Presented student innovation initiatives; participated in academic representation activities.

Founder, Frinux Technologies

Founded and managed a web development agency.

Community & Media

Co-managed a tech-focused media page (2,400+ followers); expanded the SUP'PTIC student channel to 1,000+ followers.

Languages & Interests

Languages: English — Fluent (Native) · French — Fluent (Native)

Interests: Chess | Football / Soccer | Video Games | Monopoly | Technology & Innovation | Entrepreneurship
